Proven to help
you sleep, relax
and renew
- naturally

Developed in
conjunction with world
renowned sleep expert

**Dr. Lee
Bartel**

Special

S-690 Model

48

Made for Tinnitus
Sounds included

Sound Oasis S-690 Advanced Sleep Sound Therapy System plays back nature sounds, music and therapy sounds based on Delta, Alpha or Beta brainwaves that coax your brain to match these frequencies and enter healthy states of sleep or relaxation. It incorporates patented sleep enhancement technology to help users fall asleep more easily and naturally without medication. It may also help get better quality sleep. It may also help circulate tinnitus discomfort and masks noisy neighbours, annoying and disturbing noises.

24 Included Sounds

Create an ideal selection of sounds to help you get the sleep you deserve and the sleep your body needs

World Leading Sleep Therapy

It may help you fall asleep more effectively than cheap sound machines or simple white noise machines. The S-690-01 includes several sounds that use Delta, Alpha or Beta brainwaves to coax your brain to match these frequencies and enter healthy states of sleep or relaxation

Patented Sleep Enhancement Technology

Seamlessly and gradually slows playback speed to gently lull you to sleep.

Customisable Sounds
